

**Estimated capacities to be transmitted at Entry/Exit points,
Gas year 2025/2026**

Name of points	Destination	Capacity, m³/year
1. Group of entry points into the natural gas transmission system from the interconnection with the gas transmission systems of neighboring states	Entry	1,750,124,265
2. Group of exit points from the natural gas transmission system to the natural gas transmission systems of interconnected neighboring states	Exit	161,555,935
3. Group of exit points from the natural gas transmission system to the natural gas distribution networks and/or natural gas installations of final consumers connected to the natural gas transmission system	Exit	1,588,568,330
